BODY AND BOUNCE

This season hair will see lots more volume and movement, such as this mussed up look seen at Diesel.

Free from ammonia and thioglycolates, the Organic Curl System gives hair a boost while leaving it at its own natural PH level. Choose from Root Lift, which targets flat or fine hair achieving lift and hold without unwanted curls, or the Weave Wind system to lift hair and give an added kick. Finally the Organic Curl System Perm sculpts bountiful curls

(which can also be straightened out easily) using large 2.5cm curlers (Curl System £5.95; System Activator £2.75) www.organiccoloursystems.com.

NEW GENERATION

With a new improved formula from the original High Blonde series, Goldwell's Topchic High Blonde Control helps achieve maximum colour lift without the need for a pre-lightener. Adding two new shades to the extensive 15 classic tints, Topchic uses Co-Enzyme Technology for increased

protection of the inner hair structure as well as a unique matrix consolation tool that analyses the client's base shade to determine the end result. The improved and adjusted pigment concentration achieves the desired shiny and smooth blonde on a large variety of base levels. Tel: 01323 432 100 www.hrsalonstore.com/Goldwell

ORGANIC ORIGINS

New to the UK, French company Biguine Bio has introduced a brand new organic hair care range. Proving that you can achieve results without chemicals, all products contain 95 per cent minimum of plant ingredients that come from organic agriculture. The collection includes Mediterranean shampoos, nourishing hair masks, energising concentrate treatments for tired looking hair and for clients in need of a quick answer to lack-lustre locks - Aromatic Dew which instantly detangles with no need to rinse. Tel: 01672 541 690 www.biguine.com

WILD SIDE

Inspired by the eye-catching prints seen on this summer's catwalks, the new limited edition Rare ghd IV styler combines chic glamour with practical hair care. The Rare kit contains a black gloss ghd IV styler with gold plates, sleek black storage case and heat resistant leopard print styler pouch. This eye-catching addition to the ghd family will appeal to fashionistas looking to achieve effortless style on the move. www.ghdhair.com
